

Leverage the power of the *Processing* digital audience through new email solutions. Our revamped design is mobile optimized, enhancing the user experience and giving our advertisers an immersive experience, regardless of the device. Choose from three ad sizes in both *Processing eNews* and *Global Processing eNews* to reach your target audience of process industry professionals.

Processing eNews

Every Tuesday, *Processing eNews* gives its subscribers instant insight into the kinds of challenges faced and solutions being implemented within process industries.

SOLUTIONS FOR THE PROCESS INDUSTRIES

Leaderboard
728x90

Distillery milling efficiency
What has changed with whiskey distilling over time? In a word — efficiency.
[Read Now](#)

When process pump meets the electric motor
Pumps far outnumber compressors, mixers, fans, blowers, internal combustion engines, turbines and gearboxes and represent as much as 85 percent of all rotating equipment in some process plants.
[Read Now](#)

300x250 Medium Rectangle

Solid-liquid filtration basics
Process engineers use their own kind of sleuthing to select the right type of liquid/solid separating equipment. It's not an easy task.
